

Resources: Tools for Entrepreneurs

After watching the *JA Our Region* Lesson 2 volunteer video session, complete the following activity.

Materials

- Art supplies
- Poster paper
- Research resources

Activity

What natural resources are produced in the region where you live? Do you live in the cotton belt? The Breadbasket? Silicon Valley? What types of products does your region produce?

- Do a little mining for educational resources (research) and find out about your regions' resources.
- Create a poster highlighting the natural and capital resources of your region. Your poster should include:
 - Title
 - Name of your region
 - Natural resources for which the region is known
 - Products that are made from those resources
 - Other details, such as where the resources are exported to and the transportation used for exporting
 - Careers in the industry
- Share your poster with close friends and family members and tell them some of the things you learned about resources in your region.
